AMENDMENTS TO THE CLAIMS:

This listing of claims will replace all prior versions, and listings, of claims in the present application:

Listing of Claims:

1. (Currently Amended) An absorbent article which is provided with a liquid permeable surface sheet, a liquid impermeable leakage-prevention sheet and a liquid-retaining absorbent is formed substantially oblong, and is provided on longitudinal opposite sides thereof with a pair of right and left, elastic member-carrying three-dimensional guards,

wherein said three-dimensional guards each has a skin-contacting surface portion formed by folding back a side on a free side towards the outer side of said absorbent article, and

said elastic members are respectively disposed and fixed to (i) said skin-contacting surface portion and to (ii) an approximately widthwise central portion of a raised portion, wherein said raised portion is located between said skin-contacting surface portion and a base end of said three-dimensional guard.

2. **(Original)** An absorbent article according to claim 1, wherein a total width of said elastic member disposed on said skin-contacting surface portion is larger than a total width of said elastic member disposed on said raised portion.

3. **(Original)** An absorbent article according to claim 1, wherein a radio (W_1/W_2) between a width W_1 of said skin-contacting surface portion and a width W_2 of said raised portion is 0.1 to 1.0.

4. **(Original)** An absorbent article according to claim 1, wherein a stress of said skin-contacting surface portion is larger than a stress of said raised portion.

5. **(Original)** An absorbent article according to claim 1, wherein a leg portion has no leg gather, and when said raised portion is bisected in the width direction into a lower half portion and an upper half portion, a stress of said lower half portion is larger than a stress of said upper half portion.

6. **(Original)** An absorbent article according to claim 1, wherein said skin-contacting surface portion is folded back along
